## OBJECTIVE

---

AI Solution Developer with experience building AI-powered SaaS platforms, enterprise web applications, and intelligent automation systems. Skilled in various programming languages with hands-on projects in machine learning and deep learning. Looking to contribute to innovative software solutions and grow in a challenging environment.

## EDUCATION

---

2022 - 2026 BSc. in CSE at **Daffodil International University** (GPA: 3.52/4.0)  
2019 - 2021 HSC (Science) at **Mohammadpur Preparatory School and College** (GPA: 5.0/5.0)  
2009 - 2019 SSC (Science) at **Dhanmondi Govt. Boys High School** (GPA: 4.67/5.0)

## WORK EXPERIENCE

---

**AI Solution Developer** May 2026 – July 2026  
Daffodil Computers PLC - Project Management, Software Design, Programming  
**Intern - Designing & Content** Jan 2026 – Apr 2026  
Daffodil Computers PLC - Website Management, ODOO (ERP), Graphics Design, Video Editing

## TECHNICAL SKILLS

---

|                         |                                                                                                                                  |
|-------------------------|----------------------------------------------------------------------------------------------------------------------------------|
| Programming             | Python, JavaScript, TypeScript, C, C++, Java, SQL, HTML5, CSS3                                                                   |
| Frontend                | React.js, Next.js, Tailwind CSS, Material UI (MUI), Framer Motion, Vite                                                          |
| Backend                 | FastAPI, Node.js, Express.js, REST APIs, Authentication, API Integration                                                         |
| Artificial Intelligence | Machine Learning, Deep Learning, Generative AI, Large Language Models (LLMs), AI Agents, Prompt Engineering, RAG, Speech-to-Text |
| AI Frameworks           | TensorFlow, PyTorch, Scikit-learn, Hugging Face Transformers, Ollama, Whisper                                                    |
| Databases               | PostgreSQL, MySQL, SQLite, SQLAlchemy, Prisma, Supabase                                                                          |
| Cloud & DevOps          | Git, GitHub, Docker, Linux (Ubuntu), Vercel, GitHub Actions, CI/CD                                                               |
| Tools                   | Figma, Canva, LaTeX, Arduino, Cisco, Notion, Google Workspace, Microsoft Office                                                  |

## PROJECTS

---

**AIHR - Human Resources with AI Intelligence** [Github](#)  
FastAPI, React, PostgreSQL, LLMs, SaaS – Developed AI-powered CV Matching and Performance Management modules using local LLMs, background job processing, and a scalable multi-tenant architecture.  
**Gallbladder Cancer Detection** [Github](#)  
Deep Learning, Python, TensorFlow – Built a CNN-based model to classify ultrasound images.  
**Subtext - Secured Mobile Messaging App** [Live](#)  
Flutter, Firebase - Privacy-first messaging app with decoy chats and secure authentication
